Actions Taken Report

Due to COVID pandemic Raidighi College and other educational institutions had been closed from 15th March,2020 to 15th November, 2021 and entire January, 2022 as per government order. Apart from that our college was severely affected by natural calamities since May, 2020 to May, 2022 for various tropical cyclones, heat waves, local floods etc. Prolonged lockdown and health hazards including natural calamities made us separated from the students for three consecutive years very dominantly. The above feedbacks were taken from that uncertainty in blended format and the Action Taken Reports were confirmed in IQAC meeting on 26th August, 2022 and forwarded to the Governing Body for future reference.

Teachers' Feedback Action Taken Report:

Teachers' feedback were taken at the end of November, 2021 and analyzed and discussed in Teachers' Council meeting and IQAC meeting with following ATR :

*As per the understanding of the teachers, blended education is our future and it is our duty to mentor our students to adopt the practices slowly but gradually considering the socio-economic limitations of our students.

Raidighi College

Stakeholders' Feedback & Actions Taken

- * Teaching-learning system should be participatory to understand the scope and opportunities of the syllabus within stipulated time. Popular lectures, YouTube videos, audio-visual interactions are more effective for better Students-Teachers communication.
- * The College will explore the scope of regular upgradation of library resources for both text books and career advancement materials as per the advice of teachers but teachers should encourage students for cultivation of e-resources in the present context.

Gurdians' Feedback Action Taken Report:

Our students are mostly first generation learners and guardians were mostly secondary level drop out and less than 20% were undergraduate pass as per the Guardian's Feedback 2021-22

collected in a blended format and it was also discussed in the Academic Committee and IQAC as per conventional practice.

- * As guardians were not aware of the syllabus and courses regular formal or informal interactions should enhance their interests in contemporary academic systems.
- * College will encourage guardians to visit college campuses and respective departments with their wards after COVID pandemic period for more enthusiastic involvement and support from their part.

Alumni Feedback Action Taken Report:

A general feedback on syllabus orientation, students' understanding, mentoring and career opportunities was obtained from alumni in online mode in 2021-22 because of COVID restrictions on campus. It was discussed in Academic Committee and IQAC for better understanding of the past and preparation of future academic and extensional programs.

- * It is clear that students were very much clear about the scope and challenges of the syllabus but they were not well prepared with communicative skill and time tested efficiency development because of various uncertainties.

Raidighi College

Stakeholders' Feedback & Actions Taken

- * Pre-session orientation program with course curriculum and career opportunities in regular intervals was designed primarily with online classes and mentoring programs after regularization of conventional classes.
- * Active Alumni Association will introduce immediately for more effective career advancement related guidance and extensional support for better academic domain.
