

## Online students' awareness quiz on the occasion of World Water Day 22/3/23

In a refreshing confluence of environmental consciousness and digital engagement, Raidighi College's Green Club and Seminar/Webinar Coordination Committee joined forces to host a unique online students' awareness quiz on World Water Day, March 22nd, 2023. The virtual platform buzzed with eager participants, their minds brimming with knowledge about this precious resource.

Interactive questions spanning the gamut of water conservation, pollution challenges, and sustainable practices kept the students on their toes. From identifying water-guzzling household habits to brainstorming innovative solutions for rainwater harvesting, the quiz ignited a spirit of responsibility and creative problem-solving among the participants.

As the winners were declared, a wave of excitement washed over the virtual space. But the true reward went beyond mere competition. Each participant received a certificate, a testament to their commitment to learning and their contribution to raising awareness about water's critical role in our lives.

This online quiz transcended the limitations of physical space, bringing together students from diverse backgrounds under the common banner of environmental stewardship. It served as a gentle nudge towards positive action, reminding everyone that even small changes in our daily routines can have a significant impact on the future of our planet's most precious resource.

The resounding success of this initiative solidified the Green Club and Seminar/Webinar Coordination Committee's dedication to fostering environmental consciousness within the Raidighi College community. This online quiz was not just a test of knowledge; it was a springboard for a generation to embrace water conservation as a way of life.
