

Report on Industrial Visit to Dabur India Ltd, Narendrapur

A collaborative industrial visit was organized on December 20, 2023, by the Department of Chemistry, Raidighi College, and the Department of Chemistry, Ananda Mohan College, to Dabur India Ltd, Narendrapur. The event aimed to provide students with practical exposure to industrial processes and insights into real-world applications of chemistry.

More than ten students, accompanied by faculty members from both institutions, participated in this enriching visit. The program provided a unique platform for students to interact with industry professionals, understand manufacturing techniques, and observe quality control measures employed in the production of consumer healthcare and herbal products.

This initiative fostered academic-industry interaction, strengthened collaborative ties between the participating departments, and motivated students to connect theoretical knowledge with industrial practices.

Such visits are instrumental in preparing students for future careers by offering firsthand experience of industry operations and encouraging them to explore the diverse opportunities within the field of chemistry.
